6+ years of experience with cross-functional teams in the areas of product management, business analysis, solution design, program management, business development and partner network enablement. A certified design thinking professional, I work backwards from customer pain points to define a structured product/service roadmap and aim to further my career in product leadership roles. Key strengths include –

- **Product Management** - Requirements Gathering, BRD, Strategy, PMO, Change Management, Design Thinking, Data Visualization, Agile
- **Cyber Security** - GDPR, Cloud Computing, Risk Management, Privacy, Network Security, Incident Response and Disaster Recovery
- **Sales & Marketing** - Go-to-Market Strategy, Business Development, Presales, Storytelling, Proposal Writing, Market Research
- **Tools** – SQL, Tableau, Wireshark, VirtualBox, KALI Linux, JIRA, Advanced MS Office (Including Visio, Project, Excel, Access)
- Excellent Communication (written, verbal and presentation) and Interpersonal skills

EDUCATION
